INDIANA ELECTION.—With all our best efforts, we are unable to obtain the full official vote of this State this week. We have enough, however, to warrant us in saying that the Congressmen stand as stated at our last, viz: 6 democrats and 4 whigs. The State Senate is a tie; and in the House, it will probably stand 49 democrats and 51 whigs.

Whether some of the county Clerks ever intend sending in the official returns, remains to be seen. We will not again publish the unfinished list; but when full and complete, we will do so.

COMING.—By an advertisement, it will be seen that Welch & Delavan's *Great National Circus* will be at Indianapolis on the 31st of August. This is one of the companies which has been recently making such a stir in Ohio by its splendid exhibitions. They attract thousands wherever they go. Levi North, the celebrated horseman, is among the company. The Cincinnati Enquirer says that—Delavan's trick horse, "Tammany," taught and performed by Levi North, can accomplish more than any other horse in the United States.

IOWA ELECTION.—Messrs. Thompson and Leffler, good and true Democrats, have been elected to Congress from Iowa, by large and handsome majorities, and the Legislature is thoroughly democratic. This is a most glorious triumph over Bank and Mexican whiggery, and especially Jonathan McCartyism. This result also secures two Democratic U. S. Senators.

TENNESSEE.—It is probable that the whigs, by extraordinary exertions, and the absence of a large number of Democratic Volunteers, have carried this State. This can harm none but herself, although she has a U. S. Senator to elect. Jarnagin, whose turn is out, is a Mexican whig.

ILLINOIS.—There is one member of Congress to elect in this State, we believe, in the place of Judge Douglass, elected to the U. S. Senate. The rest are only local. On this subject the State Register of the 12th inst. justly remarks:

"The RECENT ELECTION.—So far as heard from, the democrats have been unusually successful. Wherever we find the three great causes no material change since the election of Lincoln and Webb, and the return of the whigs, who have returned to gain rapidly, the democrats have made an old fashioned sweep. We do not find in the returns any evidence of change. On the contrary, the result shows that the northern democracy are invincible whenever they come up to the work with an undivided front. Let them adhere to the admirable conservative system, which has done much for them ever since the organization of their party, and they will have nothing to fear from whatever aught to happen. Harmony, concession, concert of action and unity of purpose can only be secured by conventions. Let them be adhered to as the sheet anchor of our safety. It is to be admitted that the system is not perfect; but it is unquestionably the best mode of selecting candidates that has yet been devised, and it could be no worse than to throw away, as many desire to do, before a trial one shall have been introduced."

WISCONSIN.—About next spring we may expect to hear from this glorious Western Star. She will, also, furnish her two Senators, and her Representatives in Congress. The Mexican whigs, so desirous of throwing the election of President into the House of Representatives, may possibly miss a figure yet.

J. Q. ADAMS.—From an account of a recent visit to Ex-President Adams, which is given in a whig paper, the Asburyite (O.), Sentinel of Aug. 22d, we extract the following:

"Mr. Adams thinks that our government will get up a peace with Mexico at no distant day. He is also of opinion that Gen. Scott will bring a Government there and then proceed to treat with it, and to form a peace in that way. I find his confidence in the perpetuity of our Government is most shaken. He regards us as tending toward a 'military despotism.' The attempt to make Gen. Taylor President upon the popularity which he has gained in a few battles, he regards as ominous of the downfall of our institutions. He apprehends that we shall fall in the footsteps of those Republics that have gone before us. I hinted to him the great satisfaction which the people of the United States, concluding all parties, would derive from a perusal of his views if he were able to address his constituents at this period of political calm and prolixity. He said he should be greatly pleased, standing as he now does upon the verge of life, to speak a few parting words to those whose interests he had so long maintained; but he declared himself physically disqualified."

The Taylor whig will laugh heartily at these old fashioned notions of Mr. Adams. They once professed to think as he does, and had the greatest horror of "military chieftains," even after they had changed a military for civil life. But those ideas have become "obsolete" with them: they adopted the administration of Gen. Jackson so well that they are determined to have "military despotisms" all the time! Poor Mr. Adams is too old to "progress" as rapidly as his high "principled" party has done!

Major Semans has been appointed collector of tolls at Lafayette. That accounts for the milk in the co-coonut of his man Friday! Should like to know.—*Tip. Journal*.

Wonder if any body can account for the superabundance of SAR in the "coconut" of his man Friday? Should like to know.—*Tip. Journal*.

Sharp-shooting among whig friends! *Belay!* gentlemen: if you will joke one another, don't twist about facts!

Judge Embree, whig, is elected to Congress in the 1st District, by a majority of about 500 over Robert Dole Owen. This is a triumph worth talking about.—*Tip. Journal*.

Why is it "worth talking about" in your opinion?

We'll venture to say that you will find more to disapprove of in Mr. E. as a member of Congress, than you ever found in Mr. Owen. Mark it.

The Louisville Journal of Aug. 5th diggs Gen. Taylor thus:

INDEPENDENT CANDIDATES.—We think that a man's running as what is called an "independent candidate" for office ought by this time to be pretty well understood to be false in whig.

GO! The returns of the Indiana election, as given by the *Cincinnati Gazette*, have been very erroneous indeed. If its statements as to elections elsewhere are similarly incorrect, it must be very poor authority in such matters.

Gold, to the amount of \$2,000,000, was coined at the United States Mint in New Orleans, during the last twenty days of July.
